

*Your people will rebuild the ancient ruins
and will raise up the age-old foundations;
you will be called Repairer of Broken Walls,
Restorer of Streets with Dwellings.*

— Isaiah 58:12

Bisected by St. Paul Street, the campus forms a new gateway to the heart of Dallas. It includes a worship center seating 3,000 (cylindrical structure), a state-of-the-art building for children and youth

(far left in aerial view), a new parking structure, gardens and other community spaces. A curving glass concourse sweeps boldly through the center of the complex. In the place of greatest prominence, the

cross of Christ rises amid dramatic water features. The new facilities literally embrace First Baptist's historic past, the irreplaceable treasure of the 1890 sanctuary, restored to its former glory.

Belief is building

Congratulations to First Baptist Church Dallas on the announcement of the church's new downtown campus.

The plan unveiled by Pastor Robert Jeffress on November first represents one of the largest and most noteworthy building projects in the history of the American church. It is as significant for the city of Dallas as it is for the First Baptist family—a magnificent new expression of belief in the heart of the city.

Dr. Robert Jeffress, Pastor

Beck and ChurchWorx are honored to have been chosen to serve the church in bringing this extraordinary plan to life. We congratulate Dr. Jeffress and all the members of First Baptist Dallas for their vision to create a legacy for generations to come.
